

SEO ANALYSIS AND SUGGESTIONS FOR

Website: <https://textuar.com>

Back Links

https://textuar.com/	Back Links Google
Back Links	1.8 K

Analysis: Textuar.com has around 1,800 backlinks, indicating moderate online presence. However, compared to competitors, the number of high-quality external followed backlinks is limited. This restricts the website's ability to rank for competitive content writing keywords.

Suggestion:

- Build high-authority backlinks from marketing blogs, SaaS websites, and content industry platforms
- Focus on editorial and contextual backlinks instead of directory links
- Use guest blogging and case study mentions to increase link quality

Keywords in HTML Headings

https://textuar.com/	Headings
Headings on the page	H1-1, H2 –19, H3 –13, H4 –0, H5 -0

Analysis: The website has a proper H1 tag, which is good. However, excessive usage of H2 and H3 tags may dilute keyword focus and confuse search engines regarding content hierarchy.

Suggestion:

- Keep one clear, keyword-focused H1
- Reduce unnecessary H2 and H3 tags
- Maintain a logical heading hierarchy aligned with content flow

Meta-Title Attributes

https://textuar.com/	Page Title
Page Title	Textuar: Content Writing Services in India

Analysis: The meta title is relevant and keyword-focused. However, it lacks emotional appeal and strong value propositions that improve click-through rate.

Suggestion:

- Add benefit-driven words such as “Professional”, “Expert”, or “High-Quality”
- Keep title length within 55–60 characters
- Example: Textuar – Professional Content Writing Services in India

Meta Description Attributes

https://textuar.com/	Meta Description
Meta Description on the homepage	Textuar offers the best content writing services in India to boost conversions online. Improve your online visibility with quality content. Contact now!

Analysis: The meta description is informative but generic. It does not strongly highlight unique selling points or urgency.

Suggestion:

- Add strong benefits and service differentiation
- Include a clear call-to-action
- Improve keyword richness without stuffing

Website Page Speed Score

Website	Page Speed Score by Google – Desktop	Page Speed Score by Google – Mobile
https://textuar.com/	94/100	63/100

Analysis: Desktop performance is excellent. Mobile speed is comparatively low, which can negatively impact user experience and mobile rankings.

Suggestion:

- Compress images for mobile
- Enable lazy loading
- Reduce unused JavaScript and CSS
- Improve Core Web Vitals for mobile users

Mobile Compatibility

Website	Status
https://textuar.com/	Website is a mobile-friendly

Analysis: The website is responsive and mobile-friendly, but slower mobile speed can affect engagement and conversions.

Suggestion:

- Optimize homepage banners
- Reduce heavy animations
- Improve mobile load time consistency

Image Alt Attributes

https://textuar.com/	Alt Attribute
Alt Attributes on the page	No. of static images on the website–63

	No. of images missing alt attributes – 6
--	--

Analysis and Recommendation:

Most images are optimized, but missing alt attributes on some images reduce image SEO and accessibility compliance.

- Add descriptive alt text to all images
- Use keywords naturally in alt attributes
- Avoid repeating the same alt text
